Attorney Barge-Miles.

1

| 2  | The Academic Affairs Committee has one action       |
|----|---|
| 3  | item if that is indeed what the Board decides       |
| 4  | today. That only one potential action item is to    |
| 5  | be presented by the Provost; and as you are aware,  |
| 6  | this is the University's revised work plan that is  |
| 7  | being recommended by Academic Affairs.              |
| 8  | The revised work plan will be presented             |
| 9  | today. It contains feedback received from the       |
| 10 | Board of Governors' meeting in June and from the    |
| 11 | BOT at its last committee meeting. Provost David,   |
| 12 | Associate Provost Palm and Pitter will offer their  |
| 13 | report to us regarding the University's revised     |
| 14 | work plan.  |
| 15 | Provost David.                                      |
| 16 | PROVOST DAVID: Good afternoon and thank             |
| 17 | you. We have actually been working on what          |
| 18 | will be our Power Point for the Board of Governors, |
| 19 | so I'm showing this to you in draft form so that    |
| 20 | you'll have a chance to see how we'll present it    |
| 21 | to the Board of Governors. So the next slide,       |
| 22 | please.   |
| 23 | They gave us some challenges. The first             |
| 24 | challenge was to reassess our goals for improvement |
| 25 | of student success and student outcomes and to      |
|    |   |

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

develop a plan to achieve significant success; to reassess our goals for student success rates for licensure exams and to, again, develop a plan for significant success; to reassess our goals for student enrollment with regard to student mix and segmented student body growth; and finally, to engage in long-term planning to support a vision of FAMU going forward and revitalization of FAMU in light of contemporary realities and imperatives.

C & N REPORTERS

So we circulated a separate document which basically provided the changes pulled out of the full document so you wouldn't have to search for them. So it's this document that looks like this. It has the changes that we have made. It shows what the goals were, it shows what our new goals were and -- are, excuse me.

18 And one of the things that we did is that 19 we really took advantage of the invitation from 20 both the Board of Governors and the Board of 21 Trustees to imagine where we want to be in 2019. 22 And we decided that in 2019 we want to be in the 23 middle of the State University System and being at 24 a place where we are able to provide all of the 25 support for our students to have the kind of

TALLAHASSEE, FLORIDA 850-697-8314

student success and the kind of college -- provide the kind of college experience that we believe that they are due. So that's what these goals represent.

1

2

3

4

5

6

7

8

9

10

11

12

13

This is just the planned enrollment growth. What we did here was really not too much of tweaking, but Vice President Bill Hudson will be able to speak to this if you have any questions. But what we were really trying to do is highlight that although there is growth -- because they were concerned that we were growing and not being able to provide students with the success that we want.

14 We want to make sure that they appreciate 15 the changes that we are anticipating in our 16 student body. And one is that we will grow our 17 transfer student mix, and a second is that we will 18 try and reach out more to and accept more 19 nonresident students. We have a lot of Rattlers 20 who are not -- who are potential Rattlers who are 21 not from the State of Florida. We'd like to 22 increase that mix. And we also, again, want to 23 control the number of what we call access and 24 opportunity students and what the Board of 25 Governors calls profile admits.

And this is just -- there was a question at the last Board of Trustees' meeting about the trend with our AOS students, and this is just a graphic that shows where we have been and where we are going with our access and opportunity matriculates.

1

2

3

4

5

6

7

8

9

10

11

12

So here is the kind of snapshot of those metrics that we are changing that are performance metrics. Not all of our metrics are performance measures. But those that are performance metrics that have been changed in our new draft are highlighted here in red, and those 2019 goals, that's where you see that significant jump.

The 2019 goals are where we hope to be at the State University System work plan projected average. So we took what every other State University System said is their goal for 2019, and we took an average and we decided that that's where we want to be. That's going to be our metric that we're going to shoot for.

This is a stretch goal by every definition. You'll see that there's a significant jump from 2018 to 2019. That's in part because it will take time for the efforts that we're putting in place to see a result. Our 2016 goals, our 2016 numbers for the six-year graduation rate, for example, are

based on students who have one year left of college. But the further out we go, the more likely we are to have that kind of significant impact that we're hoping for.

1

2

3

4

5

6

7

8

25

And so that's why you see a significant jump in some of the goals between 2018 and 2019. The longer we have our hands on the students, the better chance we have of meeting the goals.

9 There are other key performance indicators 10 besides the performance metrics, and so one of them 11 is the licensure pass rates. We had a very 12 productive meeting with all of the exam -- the 13 programs that have exams that fall under this 14 category as well as other licensure exams that are 15 not measured in this category to share best practices. And we're committed to getting all of 16 17 our licensure pass rates above the national or 18 state average.

And the other very important metric for us is making significant progress in the four-year graduation rate. We are -- we understand that the six-year graduation rate is the industry standard, but we want to actually improve our four-year graduation rate as a FAMU standard.

And then finally, average time to degree will

hopefully fall as we make progress with all of those other areas. And the number of graduate degrees awarded, we've increased that a little bit because we actually have the good news of knowing that, for example, the law school has brought in a larger class dunking the kind of downward trend of the last few years for the national law school enrollment. And then, of course, we have a very aggressive goal for our annual gifts because we're hoping to make a lot of progress in that area as well.

13

TRUSTEE ALSTON: Madam Chair.

TRUSTEE GRABLE: Trustee Alston.

14 TRUSTEE ALSTON: Yes, if I could, Madam 15 Provost, I think that these goals are great. Ι 16 think you used the word "stretch goals" or "aggressive goals." My question is -- I know that 17 18 we're going to have, and I think we already had, 19 you know, some budget conversation and it's not 20 really a budget question, but what fundamentally 21 needs to change from a cultural standpoint to get 22 us to 2019? So let me just ask that question.

PROVOST DAVID: Sure. So we do have a couple
of slides on what we're planning on doing. We are
going to build on successful initiatives from the

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

2012 work plan, and that was something that the Board of Governors worked with the University on. And a lot of this has allowed us to be more successful in our student advising. And that has led us to be able to, for example, have an improvement in our academic progress rate from 54% to 70% over that time frame.

CHAIRMAN MONTGOMERY: I had a question, Madam Chair.

TRUSTEE LAWSON: Madam Chair.

CHAIRMAN MONTGOMERY: Madam Chair.

TRUSTEE GRABLE: Chairman Montgomery.

13 CHAIRMAN MONTGOMERY: Could you go back to the 14 previous -- sorry, could you go back to the 15 previous slide? Just a question for Provost David: 16 Is that number correct where it says annual gifts 17 received, 3.3 for the 2015 academic year? Is the 18 3.3 million correct?

PROVOST DAVID: Yes, that's correct.

CHAIRMAN MONTGOMERY: What was the number for the previous year? Because it was my understanding that the annual gifts received actually went up, but I'm just curious as to what the number was from the previous year. And the question is so that we're trending in the right way, I see that there's

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

|    | 10  |
|----|---|
| 1  | a jump from the I mean that would be a              |
| 2  | \$1.7 million jump, and then it's sustained over    |
| 3  | time. A question I asked in a previous committee    |
| 4  | was why if we were at, I believe, five we were      |
| 5  | reported and I'll find this in the                  |
| 6  | documentation, but we were told that the number was |
| 7  | five and a half.                                    |
| 8  | PROVOST DAVID: Oh, excuse me, sorry.                |
| 9  | CHAIRMAN MONTGOMERY: I'm sorry, Madam               |
| 10 | PROVOST DAVID: Light bulb moment.                   |
| 11 | CHAIRMAN MONTGOMERY: Madam Chair.                   |
| 12 | TRUSTEE GRABLE: Sir. Provost David, did you         |
| 13 | want to respond to the Chairman?                    |
| 14 | PROVOST DAVID: So the numbers are a year            |
| 15 | behind, so the 2015 number is a significant lag;    |
| 16 | and so the number which is really based on the      |
| 17 | activities that we have been that you've been       |
| 18 | hearing about is actually the 5 million number.     |
| 19 | Does that make sense? Because it's actually         |
| 20 | reported significantly behind.                      |
| 21 | TRUSTEE GRABLE: President Mangum.                   |
| 22 | PRESIDENT MANGUM: Maybe I can help you with         |
| 23 | understanding the performance metrics report, the   |
| 24 | prior year activity. So for actual 2015, it's       |
| 25 | actually activity that took place in all of the     |
|    |   |

|    | 11  |
|----|---|
| 1  | metrics, they are the activity that took place in   |
| 2  | '13/'14; and that's reported because for            |
| 3  | everyone, there's a year lag in the data.           |
| 4  | TRUSTEE GRABLE: Okay. Mr. Chairman.                 |
| 5  | CHAIRMAN MONTGOMERY: I'm fine.                      |
| 6  | TRUSTEE GRABLE: Okay. All right. And could          |
| 7  | I just stop? We did have one other comment when we  |
| 8  | met the other day, Provost David. How many more     |
| 9  | slides do you have?                                 |
| 10 | PROVOST DAVID: Just two more.                       |
| 11 | TRUSTEE GRABLE: Two more, okay. Excellent.          |
| 12 | I want you to complete your presentation because I  |
| 13 | do have some questions and maybe other Board        |
| 14 | members, but did you have one now?                  |
| 15 | TRUSTEE LAWSON: I can wait.                         |
| 16 | TRUSTEE GRABLE: Okay. Excellent. Thank you.         |
| 17 | PROVOST DAVID: Okay. So going more to your          |
| 18 | point, we've learned from our successes, and so one |
| 19 | of the things that some of the things that we're    |
| 20 | doing is further enhancing our student services in  |
| 21 | order to ensure student success. And so here are    |
| 22 | some of the things that we're doing, very           |
| 23 | significantly, placement tests to make sure we're   |
| 24 | putting students in the right classes; improving    |
| 25 | our undergraduate student success center and        |
|    |   |

providing more academic advisors to further improve the ratio for student services. All of those things are working on redesigning and monitoring high failure rate courses.

C & N REPORTERS

Not all of those require a budgetary influx, but it is true that we do need more resources in order to be fully successful in this plan. We have the \$1 million that was allocated, and we are certainly deploying that fund in ways to support these kinds of initiatives. But if we would want to make that kind of a jump in 2019, we will have to really rethink and hire new academic advisors, particularly in the upper division area as opposed to the lower division freshman/sophomore area.

15 Those are the kinds of things that are going 16 to take additional resources. We envision having 17 camps and opportunities, boot camps to help make 18 sure students are starting on the right track. We 19 envision having an expanded version of the bridge 20 program that we just successfully are concluding 21 right now, which is a way to get those academic 22 opportunity -- access and opportunity students on 23 the right track when they have developmental needs 24 and get them into FAMU in the fall.

And all of those things will require funding.

TALLAHASSEE, FLORIDA 850-697-8314

That's part of what the legislative budget request is for. If we get that, we will definitely be able to make that kind of progress. If we don't get it, we will make the kind of progress we can with the resources that we have because we are strategically thinking.

1

2

3

4

5

6

7 We do have to think about cultural issues. We 8 do have -- we are making some changes in our 9 policies and practices. So, for example, we are no 10 longer requiring students to apply for graduation. 11 We are doing active degree audits so that we can 12 tell students, hey, you are ready to graduate. 13 And, you know, you might not know this, but you're 14 eligible to graduate for this degree even though 15 you are trying to get that degree.

16 There are some other steps we would like to 17 take, and we are going to submit a policy to the 18 Faculty Senate and the Academic Policy Committee 19 and bring it to the Board because it will be 20 helpful when -- most students are happy to hear 21 that kind of news. Some students really want to 22 persist down a path that is not the path of 23 success. And having Board support in being able to 24 say to a student, you know, you really do have to 25 change your major. Yes, we can do that, even if

1 you don't want to do it. Yes, it's time for you to 2 leave, you've been here for five years, and you 3 have credits that get you out. We will need your 4 support and we'll be asking for your support to 5 make those kinds of statements. 6 TRUSTEE GRABLE: And you had a followup, 7 Trustee Alston? TRUSTEE ALSTON: If I could. 8 9 TRUSTEE GRABLE: And we're going to try to 10 wrap up the report so we can move to other 11 questions, and I do have a couple myself. 12 Yes. 13 TRUSTEE ALSTON: Thank you, Madam Chair. And, actually, I think that's a good thing because I 14 15 recall having to apply, you know, for graduation. 16 My question is, you talked about the audits: 17 Who will conduct those audits? Is that by school, 18 by college? Is there someone in your shop that 19 will be conducting -- or a team of individuals who 20 will conduct those audits? How will the student 21 Is it an email? Because I know we've talked know? 22 about what is the main line of communication to 23 students. Is that an email that goes out to them? 24 How am I as a student notified about that audit? 25 PROVOST DAVID: So degree audits happen as a

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

matter of course, and they are typically done in the department; but for this effort where we are trying to do a degree audit of every single student, we're actually marshalling the resources of Institutional Effectiveness and the Registrar's Office and everyone. And what we want to do is be able to tell in that process every student: What do you need to do in order to complete your degree and get out of here as expeditiously as possible?

1

2

3

4

5

6

7

8

9

10 When you get to the point of actually 11 certifying someone for graduation, that is a 12 departmental function; and that is, you know, 13 notified to the student through the normal course. 14 I believe that the policy in terms of having one 15 email address that you adopted recently will help 16 us in our communications with students. But with 17 regard to students as we roll this out this summer, 18 who are graduating this summer, we sent it 19 electronically -- we sent a letter to both their 20 home address and their last updated campus address. 21 TRUSTEE ALSTON: Thank you. 22 Okay. And you're going to TRUSTEE GRABLE: 23 wrap up your presentation here? 24 PROVOST DAVID: My next slide just says we're 25 going to do more, so I'll summarize that we're

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

1 going to do more.

2

3

4

5

6

7

8

9

10

11

12

TRUSTEE GRABLE: Okay. And before we accept questions from the Board members, the President has asked to make a comment.

> PRESIDENT MANGUM: Thank you, Madam Chair. TRUSTEE GRABLE: Thank you.

PRESIDENT MANGUM: One of the questions that was raised by the Strategic Planning Committee of the Board of Governors had to do with who we are, who we want to become and what are we going to -how do we know we've succeeded, which is basically a strategic planning set of questions.

13 So what we're proposing to answer them with 14 and the way that our work plan has been built out 15 for the next several years is around asking that 16 question. So the LBRs that you have seen, they are 17 a beginning step in us asking them for the 18 resources that we need to be able to advance our 19 graduation rates, retention rates, and move the 20 institution forward.

21 So some of the faculty positions are in there, 22 but one of the things that we will outline for them 23 is a strategic planning process that includes all 24 of the stakeholders at Florida A & M University 25 beginning with a request from -- for the Board of Trustees to provide us with that direction through a strategic planning workshop.

1

2

3

4

5

6

7

8

9

10

11

12

25

From that, the process would take about eight months to advise us where we want to be, what we consider successful, and that will include providing information about the current status. Each one of the stakeholders or stakeholder groups, we would have focus groups for the faculty, the students, the staff, as well as the Foundation and Alumni to inform what a strategic plan and what the future of Florida A & M University should be about.

13 Part of that process ends with us defining the 14 resources that we need to achieve those long-range 15 strategic plans and goals. But to get the 16 direction that I believe the chair of the strategic 17 planning was called -- that was calling for depends upon us being able to give them a statement whether 18 19 it's a renewal of the existing plan or we need to 20 reframe ourselves to be globally competitive. 21 That's what we need to be able to do, and that's 22 part of this presentation and part of what I will 23 be outlining for them as a process and a timeline 24 should the Board agree to participate.

TRUSTEE GRABLE: Okay. Thank you, President

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

Mangum.

1

2

Vice Chair Lawson.

3 TRUSTEE LAWSON: Yes, thank you. Just a 4 couple of things. I was looking at the goals, and 5 I realize that there's a big jump from, let's say, 6 '16 to 2018/19, you know, whether it be the 7 full-time, in-college six-year graduation rate, et 8 cetera, et cetera. And those are some pretty big 9 jumps, and I know in the legislative request we are 10 requesting, you know, a fair amount of funding to 11 help us address those; but assuming that funding 12 does not come or only a portion of that funding 13 comes, what's the plan to go after these goals, or 14 do we need to revise these goals slightly based on 15 that?

16 PROVOST DAVID: So there -- we have more 17 confidence with -- and you'll see the nearer goals 18 are, frankly, very aggressive goals, but they are 19 lower in range in magnitude than that last jump. 20 Our confidence is more strong for the nearer-term 21 goals, and that's in part based on some of the 22 strategies that we have been rolling out this 23 summer and the strategies that we're going to put 24 in place beginning in the fall and in the spring 25 semester.

So the degree audits, to do a degree audit of every single student on this campus is actually a pretty huge undertaking. It made people groan when they heard that that's what we wanted to do. Being able to influence students as they enter their sixth year and as they enter their fifth year will allow us the chance of making that jump to 43% and then from 43% to 49%, for example, in the six-year graduation rate.

1

2

3

4

5

6

7

8

9

10 It's easier for us to move the needle on 11 academic progress rate. We're putting in place 12 things so that when we touch the students when they first start in September that we're able to put 13 14 them on a track so that we get more of them coming 15 back the following fall in good academic standing, 16 which gets us that jump from 73 to 75% in that 17 number.

18 So with all of these, there are strategies 19 that are in place that we're implementing, and we 20 have a good degree of confidence that we're going 21 to be able to make those near-term goals. And the 22 longer-term goals are where we really will need 23 additional resources to ramp those efforts up so 24 that we're getting more students, reaching more 25 students and having more of an impact.

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

TRUSTEE GRABLE: Vice Chair Lawson.

1

25

2 TRUSTEE LAWSON: On the professional passage 3 rates -- you know, one of the things in particular 4 that the law school did, I guess it was two years 5 ago when they were having problems with their 6 passage rates, they came to the table with a fairly aggressive plan that also included revising their 7 8 curriculum to include a -- I guess it was a course 9 that actually -- that simulated what the exam 10 process and, et cetera, would look like. And I'm 11 just wondering, for the other departments that have 12 that passage exam issue or hill that they have to 13 cross, what -- I guess for me I guess I need to 14 understand. Like what are we doing in each one of 15 those areas to ensure that the passage rate goes up 16 or aid in making sure the passage rate goes up. 17 Because with the law school, I think you could see 18 a direct correlation between when we made it 19 mandatory that every student take the class and 20 then looking at the passage rate. It was almost --21 it was a direct one-to-one correlation almost; 22 whereas, you looked at the people when it was 23 optional, our passage rate wasn't quite as high. 24 So can you share with us maybe some of the

things that are being done in the other schools to

1 help us, you know, kind of graduate to that level? 2 PROVOST DAVID: Right. And we actually also 3 asked them what -- what do you need to make 4 progress more quickly? It should be underscored 5 that they are already making progress, they have 6 already been implementing some of the very similar 7 strategies. They had them all in a room, and they 8 were all talking about what they were doing. It 9 was very similar across the disciplines. 10 TRUSTEE LAWSON: Right.

PROVOST DAVID: The law school had the benefit of having a fee that was assessed that they could directly apply towards that, and the others have a little bit more resource challenges. So we asked them what are the resources, additional resources you would need to make that progress more quickly.

11

12

13

14

15

16

17 Pharmacy went from being four standard 18 deviations away from the national average to being 19 within two standard deviations within the national 20 average, so they have been making progress. What 21 they have been doing is using an outside firm that 22 provides testing, supplemental questions throughout 23 the entire time that the students are in the 24 program so that they're keeping on track; and they 25 did make changes to their curriculum.

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

Part of the challenge that they had in particular was that the test changed and they hadn't changed their curriculum as quickly to meet the needs of the test. So they are taking those kinds of steps.

1

2

3

4

5

6 Nursing is looking a lot more about the 7 students they're accepting into the program for indicators, and then they also have changed their 8 9 curriculum. They haven't added a specific course, 10 but they've added questions into their courses to 11 integrate the test curriculum throughout the 12 various courses that they've had, and they've been 13 showing some success with that, although they still 14 have, again, some ways to go to meet the Board of 15 Governors' benchmark.

And then the third one was physical therapy. Gita, help me, I can't remember what physical therapy said they were doing. Don't tell them I said that.

VICE PRESIDENT PITTER: Physical therapy has done a number of things since they had a new director come on board. So starting with recruitment, they've gone to -- they're participating in the national recruitment pool, so they have access to many more qualified students.

They are reconfiguring their curriculum; they're changing the sequence of some courses; they're embedding questions into the curriculum that are much more like the licensure exam questions. And they've also got a consultant who is helping them to make this transition.

1

2

3

4

5

6

7

8

9

10

11

TRUSTEE GRABLE: Okay. Does that answer your question?

TRUSTEE LAWSON: That one did, yes, thank you. But I have a couple others, if I may.

TRUSTEE GRABLE: Certainly, Trustee Lawson.

12 TRUSTEE LAWSON: I quess in looking at this 13 situation where -- you know, I kind of go back to 14 historically what our mission has been, and then I 15 look at the reality of 92% of our current students 16 are on some form of financial assistance, right? And then I look at these metrics that are highly 17 18 leveraged to receiving a huge degree of state 19 funding in order to drive to them. And I begin to 20 question how realistic that is when I look at the 21 population base that we're working with, 22 historically that we've worked with. And there's 23 nothing wrong with that base. I was that 24 population base; I went to school on federal aid. 25 But what I'm saying is looking at that reality

and looking at these metrics and knowing that we are dependent upon this large gift to hit these metrics, do we feel like we're setting ourselves up for success.

PRESIDENT MANGUM: May I --

1

2

3

4

5

6

7

TRUSTEE GRABLE: President Mangum.

PROVOST DAVID: I defer to the President.

8 PRESIDENT MANGUM: Thank you, because I also 9 challenged the Provost to move the numbers to a 10 more normal for SUS system set of metrics. And the 11 reason for that was that also during the Board of 12 Governors' meeting, we were challenged to say what it is we need. And if we're going to perform at 13 14 the same levels of success as other SUS system 15 schools using the averages that the Provost and the 16 campus community used to come up with these 17 numbers, we need to be funded at that level, and 18 they said funding didn't matter. Because we have 19 the type of students that we serve, we requested 20 the resources that we believe that will help us 21 move in that direction and obtain those goals.

22 So I believe that we're addressing the 23 challenge to get the resources that we need to have 24 our students perform at the same levels. They may 25 not be the same services as are provided to other

institutions, but they are the services and programs that we need to move our students forward.

1

2

3

4

5

6

7

8

9

10

So I do believe it is idealistic in its nature, but we were asked to give what we believe that would move us and move the institution forward, and it's aggressive.

TRUSTEE LAWSON: Yes. Yes, I mean going from what, 45 to 75% full-time-in-college six-year graduation rate, you know, I mean that's pretty steep.

11 So that was my -- that's my concern. Are we 12 potentially looking up a hill we cannot, even in 13 this window of time, achieve? So, you know, I 14 don't want to rehash, but that's just a concern 15 that I have as I look at the metrics, given, you 16 know, what we've historically worked with as a 17 student population; and we've taken that population 18 and built them to be very productive but, you know, it's taken a bit of a push to get up that hill; and 19 20 we all know that there has not been a lot of excess 21 dollars floating around the state for education in 22 the last four years. So, you know, I just look at 23 those realities and say, are we being realistic 24 about the targets that we're setting? 25 PROVOST DAVID: Can I respond?

TRUSTEE GRABLE: Provost David, and then --TRUSTEE LAWSON: I'm done.

1

2

3

4

5

6

7

8

9

10

11

TRUSTEE GRABLE: -- unless there's another Board member who wants to speak, I do have a couple of questions and then we want to try to move the committee meeting forward.

PROVOST DAVID: It's important to recognize that this is a report that we put in every year, so our goal for the 2016 numbers are based on what will happen when we close out the calendar in August.

12 2017 numbers will be based on what we think we 13 can achieve next year, and those are the more 14 realistic or modest goals. We are going to go full 15 out to get them, and we're going to go full out to 16 get the resources. If it turns out we don't get 17 the resources or we're not on the track that we 18 thought we were, then next year when we're 19 approving this, we might adjust downward from 75. 20 I don't want to be in that position, I want to be 21 in a position where we are -- have the resources 22 and the appropriate planning in place to make that 23 75 goal look more realistic next year than it looks 24 this year. But if we're not, you know, then we'll 25 make some of those kinds of adjustments. But right

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

27 1 now my goal is to energize people around 75%. 2 TRUSTEE LAWSON: Okav. 3 TRUSTEE GRABLE: Yes. Thank you, Trustee 4 Lawson. 5 Trustee Moore. 6 TRUSTEE MOORE: Yes, just a comment and then a 7 question. 8 Trustee Lawson, I share in your concerns, but 9 then what gives me some positive thought is then 10 when I look at the planned growth section, we will 11 look to -- under the strategy and model to attract 12 a different type of student. We're looking at an 13 increase in our regular admits as well as our 14 transfers and a decrease in the profile admits, 15 which then suggests that we're moving in a 16 different direction and the quality of student will 17 be different. So that helps me as I look at this 18 aggressive number.

With respect to my question, Madam Provost, under the doctoral program section, it looks like in our May 2015 document that was provided to the Board there were six programs that we had listed; but for our newest revision or draft, it looks like computational science, chemistry and biomedical science have been removed, and just your comments

C & N REPORTERS

TALLAHASSEE, FLORIDA 850-697-8314

on that.

1

2

3

4

5

6

7

23

PROVOST DAVID: You're right, there actually was one more slide.

TRUSTEE MOORE: Okay.

PROVOST DAVID: And that's where it shows that.

TRUSTEE MOORE: Okay.

PROVOST DAVID: And so one of the concerns 8 9 that -- there you go -- one of the concerns that 10 the Board of Governors raised was having a list of 11 six new doctoral programs, even though this is for 12 academic year -- to seek approval in academic year 13 '16 through '18, they were concerned that it showed 14 that we are going to be diluting our efforts from 15 trying to make undergraduate success.

So in order to respond to that, we have cut back our aspirations for academic year 2016 to '18 what we will seek approval for. So it's got contingencies upon contingencies. And then if we are able to demonstrate that we are making the kind of progress, then we might revisit this list for a future time.

TRUSTEE MOORE: Thank you.

24TRUSTEE GRABLE: Okay. Thank you, Provost.25Any other questions from Board members?

(NO RESPONSE).

1

2

3

4

5

6

7

8

TRUSTEE GRABLE: Okay. I would like to echo a couple of things. President Mangum was correct. If you look through that transcript down at the Board of Governors' meeting in June, we do see several times where the governors asked: So is there anything we can do? That came from Governor Robinson.

9 Also, I'd like to point out, back to Trustee 10 Lawson's comments, these are aggressive numbers, 11 but the Provost does seem to feel that they are 12 within reach with her energizing of the various 13 stakeholders. But I would like to read just a 14 couple of statements from the Board of Governors' 15 meeting last month where Governor Levine said, 16 quote, I just don't think some of these metrics are 17 aggressive enough, and I'm not sure I'm going to 18 support the work plan.

So that goes back to Trustee Lawson's
question, some of your concerns, Trustee Moore, as
well as what the Provost has said.

We had no choice but to be aggressive, and I think you heard that message loud and clear, and thank you. We do need to make sure that we do meet those numbers. But there was also one other comment from Governor Levine who I thought seemed to have some very poignant comments, and he offers, quote, I think the competition for minority students are so intense right now, and you've got to have, you've got to have -- to be more than the Number 1 HBCU, your performance has to be competitive to the point that you can attract students who have a choice of going anywhere. And he added: And I don't know if you (unintelligible) irrespective of where we are today, if you don't recognize that the platform is burning.

1

2

3

4

5

6

7

8

9

10

11

12

That to me was a very poignant comment, "the platform is burning." So we have no options at this point but to be as aggressive as possible. And for those of you who were at the meeting, they did ask for a transformative, those one-word (inaudible) and reinvention.

So this is really critical that we do meet these goals, as you indicated, Provost David. But then I'm going to move to my overall question, and I'm going to move the questions away from the specifics of the plan because, as I recall, there's a term used at the Board of Governors' meeting saying that we do now have thoroughbreds at the

table, and meaning the new leadership team members that the President has brought in, but -- and you and I talked about this the other day in our pre-meeting where you informed me of where we were going and what we planned to do with the meeting today, along with Associate Provost Palm being in the room.

8 Provost David, did you and/or members of your 9 staff review the transcript of the BOG meeting in 10 making your revisions? And I heard some 11 references, but I just want to be certain of that 12 before I ask my question.

13PROVOST DAVID: Yes, we did, and we also14reached out to I think it was Florida International15Univers -- I get the Florida, the schools --

VICE PRESIDENT PITTER: FAU.

PROVOST DAVID: FAU.

1

2

3

4

5

6

7

16

17

18 VICE PRESIDENT PITTER: And UWF.

PROVOST DAVID: And UWF, which were the two schools, to hear more about their best practices. We have also have been at various conferences this summer where you have a chance -- for example, the APLU conference, the Association of Public Land Grant Universities conferences where they talked about best practices for student success. So we've

been reaching out and testing our plan against other areas.

1

2

3

4

5

6

7

8

9

TRUSTEE GRABLE: Okay. With that said then, and you and I talked about this question, and I mentioned to you that I would bring it back again today at the full committee meeting: Did the BOG staff or has the BOG staff reviewed this revised plan that you are presenting to us today and offer any comments or suggestions?

10 PROVOST DAVID: So the answer is, they knew 11 where we were before, and so they told us that they 12 actually were comfortable with our original 13 numbers, but they gave us specific feedback about 14 what they thought would meet the needs of the Board 15 of Governors themselves and -- or the governors, 16 excuse me, themselves; and we have incorporated 17 that.

18 But then since we talked, actually yesterday 19 a staff member called me up because they had seen 20 the draft uploaded on our Board of Trustees' 21 website, and they called to inquire because they 22 noticed that it is a significant increase in the 23 2019 goals. And they asked about our rationale, 24 and they asked how we thought we could get there. 25 And she said, okay, I see you have a plan. It's

aggressive, but I see you have a plan and we will support you.

1

2

3

4

5

6

7

25

TRUSTEE GRABLE: Okay. Well, I hope it's aggressive, transformative, and a reinvention in the eyes of the Board of Governors. But as you can see, other Board members are suggesting we do feel that they are aggressive.

I'm curious for -- maybe for future work 8 9 plans, would it be possible, again -- and I 10 mentioned this in our committee meeting, the first 11 committee meeting of our committee -- that we all 12 do get a chance with all of the stakeholders you 13 plan to bring in, that potentially --Doctor Mangum, 14 certainly feel free to chime in -- if we can see 15 the actual presentation with various inputs from 16 different stakeholders.

17 As I mentioned to you, and talking with the 18 University of South Florida trustees, they actually 19 do review it with representation from their various 20 stakeholders, including representatives from the 21 Board of Trustees, to just help offer some sort of 22 tweaking, just a separate set of eyes, if you will, 23 in terms of the presentation, to make sure we put 24 our best efforts forward.

PROVOST DAVID: So I will, of course, have to

1 defer to the President on how we prepare. But this 2 is the draft of the slides, so if you have --3 that's why it's on the template that the Board of 4 Governors expects us to use. So if you have 5 suggestions about these slides -- it's not 6 complete, there are a couple of other slides that 7 we're going to put in to answer specific questions, but this is kind of what I've got to share with the 8 9 Board of Governors. TRUSTEE GRABLE: Doctor Mangum. 10 11 PRESIDENT MANGUM: Thank you. 12 I think the question is: Was this in the 13 packet when it was first posted up to the 14 internet --15 TRUSTEE GRABLE: Yes. 16 PRESIDENT MANGUM: -- so they could see it 17 beforehand; that's what I think she wants to know. 18 But this is the opportunity where the tweaking 19 takes place at the committee. 20 PROVOST DAVID: Oh, I'm sorry, you wanted to 21 see it before --22 TRUSTEE GRABLE: Right, in advance so I could have studied this. 23 24 PROVOST DAVID: Oh, okay. 25 TRUSTEE GRABLE: Yes, because I don't think

any other member had seen this slide presentation, 1 2 and that would be helpful as we're going over this 3 and reviewing it; but for -- I still didn't get an 4 answer to the question. You're saying then that 5 this is our opportunity, so does that mean then 6 that we will get a chance to get a copy of that 7 and then come back and make a decision on whether 8 or not we want to move forward with the work plan? Because it's rather difficult to absorb a lot of 9 10 this and make comparisons and look at other 11 schools' plans without having had this in advance. 12 PROVOST DAVID: Okay. So the work plan and 13 the changes to the work plan were both uploaded 14 last week. 15 Yes, and we did get that, but TRUSTEE GRABLE: 16 we have not seen what you're showing here. 17 PROVOST DAVID: This is just a presentation to 18 you --19 TRUSTEE GRABLE: Right. 20 PROVOST DAVID: -- and for convenience, I used 21 the template which is what I will use in the Board 22 of Governors in my presentation to you. 23 TRUSTEE GRABLE: Okay. 24 PROVOST DAVID: But what needs to be approved 25 is the work plan, and that was uploaded last week

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

to the website.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

TRUSTEE GRABLE: Okay. But not dealing with the work plan but just this presentation, Board members did not get a chance to review this presentation. But now you just said that this was a presentation just for us. I'm interested in the actual presentation that will be presented to the Board of Governors so that we all can offer some suggestions to improve it, since we have seen others.

PRESIDENT MANGUM: Okay. Thank you. If I may respond, I talked with the Chair two meetings ago, and what we agreed to do was review all of the presentations to the Board of Governors with the Board of Trustees before we make it.

TRUSTEE GRABLE: Excellent.

PRESIDENT MANGUM: So once this one is done, any presentation going forward that we make to the Board of Governors, we will schedule an opportunity for the Board of Trustees to review it. We tried to reinstate kind of that process last week with the ten-minute call in --TRUSTEE GRABLE: Yes.

24 PRESIDENT MANGUM: -- or the time to call in 25 in those half-an-hour blocks so that we could do it

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

1 without calling a full Board meeting but each Board 2 member would have the opportunity. So we're going 3 to go back to doing that, not just for Board of 4 Governors but for Board of Trustees. 5 TRUSTEE GRABLE: Okay. 6 PRESIDENT MANGUM: But if the Board wants to 7 have a called meeting to review it, or we can do it 8 individually. 9 TRUSTEE GRABLE: Okay. 10 PRESIDENT MANGUM: But we are committed to 11 doing that. So when we are done before 12 September --13 TRUSTEE GRABLE: Yes. 14 PRESIDENT MANGUM: -- we will have an 15 opportunity to review all of the presentations that we'll make, not just for this particular 16 17 committee but for any other ones that we make going 18 forward. 19 TRUSTEE GRABLE: Okav. And I think that is 20 where --21 CHAIRMAN MONTGOMERY: Madam Chair. 22 TRUSTEE GRABLE: I'm sorry, was that Chairman 23 Montgomery? 24 CHAIRMAN MONTGOMERY: Yes, I had a comment. 25 TRUSTEE GRABLE: Okay. Go ahead, Chairman.

CHAIRMAN MONTGOMERY: Thank you.

1

2

3

4

5

6

7

8

9

10

Provost David, in line with what's being asked, I spent over an hour today with Doctor Mangum and she didn't answer my questions. But as Board Chair, I had questions that I didn't understand, and so with that amount of time invested with me as the Board Chair, I'd imagine that there are other members of the committee -- or members of the Board who might also have the same type of questions and concerns.

And so the time constraints, my suggestion --I've suggested this to Doctor Mangum -- is that you reach out -- when we have things of this level of importance, that you reach out to individual members of the Board, or at least members of the committee, and on an individual basis walk them through this type of information.

18 I will share this tomorrow in the Board 19 meeting, but we are going to present a 12-month 20 calendar, because this stuff happens every year. 21 So next year we're not going to be -- well, if I'm 22 in the leadership capacity, we're not going to rush 23 at the end and try to move things along. We're 24 going to make sure that the Board is informed so 25 that when we come to these types of forums, these

1

2

3

4

5

6

7

8

will be five-minute conversations.

But again, my suggestion so that we're not in the position where -- I don't have a copy of this, the Chairman doesn't have a copy of this, the Board members don't have a copy of this. To prevent that in the future, would be to effectively educate them prior to the meeting; and then that way we can move things along.

9 PROVOST DAVID: So I apologize. I wasn't 10 aware that our PowerPoints were expected to be 11 posted before the meeting. But if that is the 12 practice, I'm happy to post my PowerPoint before 13 the meeting.

I did actually reach out to Trustee Grable to try and set up a meeting with the committee to talk through at depth and answer questions about the work plan, but there I guess was --

TRUSTEE GRABLE: I was -- when you and I 18 19 talked the other day, there was no discussion 20 about this presentation. I'm not just looking at 21 just the PowerPoint for the Board, we're actually, 22 as the President indicated and I believe the 23 Chairman is saying, the level of importance of 24 this presentation to the Board of Governors is 25 what we want to see as soon as we're able to

complete it.

1

2 If you're referring to this as a PowerPoint, I 3 thought at one point you also referred to it as the presentation that you will give to the Board. 4 5 Okay, so the President is saying that is not the 6 case. 7 And that's what we're interested in seeing, 8 but this still would have been helpful if it had 9 been uploaded to our site, but it was not. 10 President Mangum. 11 PRESIDENT MANGUM: May I clarify a little? 12 TRUSTEE GRABLE: Yes. 13 PRESIDENT MANGUM: The Provost's part of the 14 presentation is probably complete. I have the 15 strategic planning piece to put in it. 16 TRUSTEE GRABLE: Okay. And that's what we're 17 interested in seeing in case we can offer --18 PRESIDENT MANGUM: And you will. 19 TRUSTEE GRABLE: Okav. 20 PRESIDENT MANGUM: Because that's the meeting 21 that we're talking about scheduling. 22 TRUSTEE GRABLE: Okay. 23 CHAIRMAN MONTGOMERY: One more. 24 TRUSTEE GRABLE: Chairman Montgomery. 25 CHAIRMAN MONTGOMERY: And just one more thing.

1 I think it would also be helpful, Provost David, if 2 you reviewed our operating procedures because it 3 kind of lays out that we -- I mean I don't 4 necessarily have to read it to you, but it tells 5 you about supporting documentation and that type of 6 thing, and this information being presented to 7 us -- I mean I don't know if you realize it but 8 some of us -- even in just looking at it, it's 9 just really helpful -- I know it's old-fashioned, 10 but it's really helpful to have the information 11 in front of us. So if you plan to present 12 something that's extensive like this going forward, 13 I'd ask -- I mean we can mention it to Doctor 14 Mangum, but that you present it to us prior and 15 give us enough time prior to digest. 16

So it's not a, I don't think, a complaint about the specifics. But this is something that's newly introduced today, and so in the future, if we have time to digest it ahead of time, then I think it puts us in a better posture.

21 PROVOST DAVID: I am happy to do whatever I 22 can. I do want to emphasize that the information 23 on this PowerPoint, those charts are really just 24 the charts that were in the handout that was sent 25 out, in the work plan that was sent out last week.

41

1 I just put them in the PowerPoint so that I could 2 talk through them.

> So all of the specifics were in those two documents. I will do my best to have Power Points ready earlier and have them uploaded.

TRUSTEE GRABLE: That's fine. Thank you, Provost.

8 PROVOST DAVID: If I have a new thought the 9 night before, can I amend the PowerPoint? It's 10 hard for me to get the PowerPoint up a week 11 before.

12 TRUSTEE GRABLE: Okay. Well, again, whatever 13 you're going to present to the Board, even in a 14 PowerPoint -- and we get this in the other 15 committees -- we'd just like to see it in its 16 various forms, and we can make comparisons with 17 everything that we get, and thank you.

PROVOST DAVID: Okay.

3

4

5

6

7

18

19TRUSTEE GRABLE: All righty. At this time,20with that being said, I really would like to see a21copy of this particular PowerPoint where I can22study and compare it with what we already have.23And also, Doctor Mangum, we will follow through in24receiving the others as you indicated to us, the25final one.

43 1 PRESIDENT MANGUM: Right. 2 TRUSTEE GRABLE: And are there any other questions from Board members? 3 Madam Chair. 4 TRUSTEE GRAHAM: 5 TRUSTEE GRABLE: Yes, Trustee Graham. 6 TRUSTEE GRAHAM: I don't have a question, but 7 to you, Provost David, and your staff, thank you 8 for providing these updates. 9 Also, I'd like to be used as an asset in my 10 current position on the Board of Governors for this 11 University. So if you and your office can get an 12 appointment with me so that I can be fully briefed 13 and updated on everything before the next meeting 14 moving forward and can help shepherd this work plan 15 along for FAMU. 16 PROVOST DAVID: Great. Thank you. 17 TRUSTEE GRAHAM: That's it. Thank you. 18 TRUSTEE GRABLE: Thank you, Trustee Graham. 19 Trustee Shannon, anyone on the phone have any 20 questions, comments, or any other members? Yes? 21 TRUSTEE SHANNON: No questions for me. I'm 22 just glad that we'll have a little bit more time to 23 see the information, so thank you. 24 TRUSTEE GRABLE: Okay. You're welcome, 25 Trustee Shannon.

1 Okay. So with that said, I would like to make 2 a motion that we delay our approval of the work plan until we've all had a chance to review all 3 4 appropriate documents, which ties very well to 5 Trustee Graham's request and that we can bring it 6 back either in a called meeting or however we want 7 to address that because we still do have time 8 before -- at least a month out, are we, from the Board of Governors' meeting? 9 PROVOST DAVID: It's a little under a month. 10 11 Okay. So would that be TRUSTEE GRABLE: 12 enough time for each Board member to review the 13 items that we didn't get today? Chairman 14 Montgomery. 15 CHAIRMAN MONTGOMERY: Madam Chair, I'd only 16 ask that the information from a committee 17 perspective be completed no less than 10 days prior 18 to the Board of -- the next Board of Governors' meeting. That will allow for the Board members who 19 20 are going to be in attendance and the rest of the 21 Board to take a look at the information. I've also 22 requested that Doctor Mangum brief me, the Vice 23 Chair, and any of the other members of the Board 24 who plan to be in attendance at the -- actually in 25 person at the meeting. So ten days is all I'm

44

1 asking, whatever your process is, so be it. As 2 you know, it's within your charge and authority to call the meeting at any time, but I'd ask that 3 4 the information be presented to the Board no less 5 than 10 days before the Board of Governors' 6 meeting. 7 TRUSTEE GRABLE: So that would be I quess a 8 friendly amendment to the motion. Are there -- is here any other discussion? 9 10 TRUSTEE ALSTON: Well --11 Trustee Alston. TRUSTEE GRABLE: 12 TRUSTEE ALSTON: Yeah, I --13 PROVOST DAVID: Excuse me, I'm sorry. I just 14 received some urgent information from Doctor 15 Pitter, and we do have to submit a final version to 16 the Board of Governors' staff by August the 12th. 17 TRUSTEE GRABLE: But Board members wanted to 18 make sure they had that presentation that was 19 submitted, and then we could just roll back the 20 schedule to where it meets with the Chairman's 21 request. That's an amendment to the motion. 22 Well, but that's next week. TRUSTEE WOODY: 23 PRESIDENT MANGUM: May I ask a question for 24 clarity? 25 Yes, President Mangum. TRUSTEE GRABLE:

45

PRESIDENT MANGUM: The work plan is a document that the Board of Governors is expecting from us that's approved. The PowerPoint is our way of presenting the summary of the work plan. Those are two different things.

TRUSTEE GRABLE: Right.

1

2

3

4

5

6

PRESIDENT MANGUM: The Board of Governors will not review or approve the presentation, it's just a talking -- these are just talking points that will assist us in communicating the changes in the work plan which was posted to the website a few -- what, seven --

13PROVOST DAVID: Last week, at the end of last14week.

15 PRESIDENT MANGUM: Seven days ago with the 16 required amount of time. So this won't change 17 unless you guys tell us something that should be 18 changed in it. This is what's being -- this is 19 what's being requested to be approved that's due. 20 TRUSTEE LAWSON: By the, by the --21 Trustee Lawson. TRUSTEE GRABLE: 22 TRUSTEE LAWSON: My only question was just on 23 the due date. So the due date is the 12th? 24 TRUSTEE GRABLE: The 12th, right. 25 TRUSTEE LAWSON: Not at the next upcoming

Board of Governors' meeting.

1

| 2  | TRUSTEE GRABLE: Right, that it must be given        |
|----|---|
| 3  | to them. Well, then so is it not possible then      |
| 4  | because, again, when we look at the information on  |
| 5  | your PowerPoint, which is very good, it does        |
| 6  | elaborate on some of these items in the work plan a |
| 7  | little bit more. And I would feel more comfortable  |
| 8  | if I had a chance just to review that, and it's     |
| 9  | what, nine slides, ten slides? How slides did you   |
| 10 | have there? Nine? Eleven?                           |
| 11 | PROVOST DAVID: Eleven.                              |
| 12 | TRUSTEE GRABLE: Okay.                               |
| 13 | PROVOST DAVID: Eleven slides.                       |
| 14 | TRUSTEE GRABLE: Okay, 11 slides. So it's            |
| 15 | just a matter of us taking a moment, jut a moment   |
| 16 | to digest that in addition to the work plan so that |
| 17 | all Board members feel comfortable with that and,   |
| 18 | of course, with what Doctor Mangum will add and     |
| 19 | bring forward to us.                                |
| 20 | So when would be a reasonable time for you to       |
| 21 | get this to us so that we still have time for you   |
| 22 | to get the approved get it sent to the Board of     |
| 23 | Governors?  |
| 24 | TRUSTEE ALSTON: Madam Chair.                        |
| 25 | TRUSTEE GRABLE: Yes, Trustee Alston.                |
|    |   |

47

TRUSTEE ALSTON: Thank you. I think I've done my homework, and I think that many of these changes that at least I saw, I think -- I didn't go through the presentation to see if there were additional changes in the PowerPoint, so maybe that's a separate question. But in terms of the actual goals that I think where we started from and I think where it's been proposed to us at this point, I know the conversation, at least I think from Trustee Lawson -- I'm sorry, Vice Chair Lawson -initially, was the comfort level around the aggressiveness of the goals.

1

2

3

4

5

6

7

8

9

10

11

12

13 I think we started around another side of the 14 conversation with comments from Governor Levine, 15 who I know personally, I think he is a great person, means well. And actually many of his 16 17 comments, personally I think, were spot on, only 18 because if you look at, you know, where we are, 19 FAMU today is not FAMU from 1960, 1980, 2000. 20 There are different types of competition that we as 21 a university face, so we're in a totally different 22 era.

If many of you sitting around this table
recall, that not too long ago we were talking about
the Millennium Famuan. I think that was the term

that we used probably -- maybe a year or two ago. You know, I think we forgot about, you know, that quality that we were just talking about probably a year or two or three ago, of us doing exactly what we talked about, increasing the number of profile admits or access and opportunity students, talking about reaching out to transfer students, community college students, international students, students outside of Florida.

1

2

3

4

5

6

7

8

9

10 So I don't think that this conversation about 11 quality is new. I think we've had this 12 conversation. I think that conversation that we've 13 had probably really over the last couple of years 14 that I've been on the Board finally is crystallized 15 in this document, and the Board of Governors pretty 16 much forced us to do it, which I think is a good 17 thing.

18 So me personally, Madam Chair, I am ready to 19 approve this because I think this moves us inline 20 with other universities in the state system. This moves us inline with other universities across the 21 22 nation, and I think that we've talked about 23 consistently that we want to be the best, not just 24 the best here in Leon County, but the best, you 25 know, across the country.

50 1 So I can approve this, but if you want -- I mean a potential solution is we can withhold 2 3 approving the changes in these goals maybe until tomorrow, I mean if you just -- if the issue is 4 5 submitting the actual presentation to the Board. 6 But in terms of these aggressive goals and bringing 7 us inline with other schools, I think it's a good 8 thing. 9 Yes, it's a stretch, I think using your term. 10 Yes, it's going to be tough. But I think this will 11 get us to finding and attracting the type of 12 quality FAMU student that we used to attract not 13 that long ago. 14 TRUSTEE MOORE: Madam Chair. 15 Thank you, Trustee Alston. TRUSTEE GRABLE: 16 Trustee Moore. 17 TRUSTEE MOORE: Just -- I'm not a member of 18 the committee but did want to weigh in on this. 19 I view these as separate conversations. I 20 believe the work plan in and of itself in terms of 21 when it was posted and what the discussions have 22 been thus far, I did go through the prior document 23 and I did compare it to where we are now; and it 24 appears that the questions have been answered in 25 terms of the supplemental document, which appears

to be an extraction of what was already posted in 1 2 your full document. From my vantage point, it 3 shouldn't delay voting on it one way or the other 4 in moving us forward to that deadline of 5 August 12th. 6 TRUSTEE GRABLE: Are there any other trustees 7 who want to weigh in on this? 8 (NO RESPONSE). 9 TRUSTEE GRABLE: Okay. Let me just offer this 10 comment. We had these same confident feelings 11 about this report when we submitted it to the Board 12 of -- to the Trustees a couple of months ago, and 13 then we went down to the Board of Governors' 14 meeting and they handed it back to us. 15 I just think we still have -- the 12th is 16 when, next Wednesday? Okay. I'd like to ask 17 Chair -- ask that we take another couple of days just to take a look at this, and I think it's 18 19 important enough. We do -- at this point, the 20 Board of Governors' staff, from what the Provost 21 said, said they liked the first work plan we 22 submitted. They're saying they think it's 23 aggressive but they're fine with it. 24 So where was the disconnect? That's my 25 concern. And I don't think the University can deal

TALLAHASSEE, FLORIDA C & N REPORTERS 850-697-8314

with any more adverse publicity regarding this 1 2 report, so that is my concern about us at least 3 letting it stew for a day or two; but, of course, 4 we will hold the vote and it will be up to the 5 trustees. But I think we need to be much more 6 cautious in what we submit to the Board of 7 Governors because we did feel we had a plan, a work 8 plan that would have been accepted before, but 9 somehow things fell apart. And I would assume then 10 that there was surprise on behalf of the Provost 11 and the President that the work plan was not 12 approved the last time, and we've in the same 13 position now.

So I feel really concerned that we try to be more certain about what we're doing. When I asked the question did BOG staff review this revised plan, you said they did; you also said that they reviewed the previous one. So what happened with the previous one, and what are the possibilities of that happening to this one?

PROVOST DAVID: I could only tell you that the Board of Governors' staff which knows us on a data level, they know more about the data on an institution than, frankly, we do because they have it all at their fingertips and they put the

situation against other institutions. They thought that the goals we had were realistic and stretched but cautious.

1

2

3

4

5

6

7

8

9

10

11

They are the staff, and the Board of Governors' governors -- just as the Board of Trustees -- are independent from the staff that support them. And the staff members said they were as surprised as we were that our plan was not approved, and it was based on the Board of Governors, who wanted us to have a more aggressive plan.

12 And so we are trying to respond and take up 13 the call to invitation in the instructions that 14 they gave us at that meeting, taking them at their 15 word that if we come up with an aggressive plan 16 which requires support that they will give us the 17 support we need, and that's what gives us the 18 confidence because what we are trying to do is say 19 that we want to be with all of the rest -- in the 20 middle of the mix of all of the rest of the SUS. 21 And that has to be a goal, I believe, that they 22 will support because I think it's a good goal, and 23 it is a very aggressive goal, but it is a goal that 24 really thinks about student success in a very 25 different way.

Okay. With that said --1 TRUSTEE GRABLE: 2 Madam Chair. TRUSTEE ALSTON: 3 TRUSTEE LAWSON: Madam Chair. 4 TRUSTEE GRABLE: Trustee Lawson. 5 TRUSTEE LAWSON: Yeah, I'll try to be brief. 6 I know you guys have gone around on this. I'm not 7 on the committee, but I just had a couple of 8 comments.

9 The first comment I have is around process. 10 There's a lot of conversation around what people 11 haven't seen, want to see, need to see but yet we 12 have a deadline of Wednesday. I don't know how we 13 get there. So in my mind the process needs to be 14 addressed on how this moved. Like we went down, we 15 had a conversation, we got feedback, we came back, 16 we did revisions, and now we have to resubmit, all 17 the logical sequencing of steps. But the process 18 to engage the Board some way, somehow, either it's 19 not what we would all have hoped or maybe in the 20 rush to get it back to the approving body we 21 So my first comment is negated that process. 22 around, Trustee Grable, process, and I feel like 23 coming out of this we need to understand what that 24 looks like moving forward.

My second question is: I get the

25

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

aggressiveness of the goals. In listening to the team earlier, you know, it started to sink in. But if I'm sitting on the other side of the table listening to this, I think we're going to have to be able to really articulate how we're going to get from Point A to Point B. Because if I'm the approver of this and you come back and you did what I asked, which is you upped the goal, that's good. So how are you going to get there?

1

2

3

4

5

6

7

8

9

And you guys may have that institutional knowledge that you haven't yet shared with us, but that's -- as I look at this, that's my second concern, not that the goals are too high, but how are we going to get there? What's the bridge to go from Point A to Point B? How we do that in a time-bound fashion?

17 And the last thing, and I think the President 18 actually started to address this, is how do we 19 begin a more holistic approach of partnering with 20 the Board of Governors so that we're not just 21 always answering questions and requests, not that 22 we are, but sometimes it feels like we are. Going 23 back to a conversation we had a couple of months 24 ago around about, hey, who really drives the 25 metrics on performance funding? Do we let them

56 1 give them to us, or do we have recommendations? 2 So to try and sum this up in three points: 3 One, I feel like we need a process around how we 4 manage this moving forward. 5 Number 2, it is, do we really, really feel 6 good about these goals, and how do we get there? 7 And that's more of an internal question for the 8 team, and you guys may say, yes, we do and we'll 9 have to take you at your word. 10 And Number 3 is, you know, how do we begin to 11 more proactively engage with the Board of Governors 12 on larger scale issues that, you know, have an 13 impact on us? There are a lot of things that we 14 can decide on our own, but then there are other 15 things that we need, if not their full buy-in at least their support around. 16 17 Doctor Mangum. 18 TRUSTEE GRABLE: President Mangum. 19 PRESIDENT MANGUM: You make some great 20 comments. So these meetings, we probably all 21 labored with the assumption that this is where we 22 have this conversation about whether or not -- what 23 you think about the goals, whether or not they're 24 too aggressive, and whether you'd like us to push 25 back and pull back on them.

This is what I thought or probably what we thought as a team. The committees -- this is what the committee does, is talk about this material and if you want us to change it.

Part of the question I think that many of the governors wanted to know was whether or not we had this conversation holistically as an institution. And that's what we're proposing to do with the strategic planning process. But in the interim --

TRUSTEE LAWSON: Right.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

PRESIDENT MANGUM: -- the near-term goals haven't changed that much. We're looking to the future because we have to set your -- set goals for ourselves that we could all agree to perhaps and then adjust them every year as this process continues to go.

17 We had a conversation about the performance 18 metrics and how we believe that members of the 19 Board of Trustees worked with members of the Board 20 of Governors to talk about and advance the cause of 21 Florida A & M University around these metrics. But 22 getting the confluence of thoughts from the Board 23 as a whole and the committee as a whole is 24 something that occurs through the discussion and a 25 conversation. Absent these types of conversations,

we don't get to get all of your input, and so that's what we were hoping to do through these types of discussions.

> TRUSTEE LAWSON: Through this session today. PRESIDENT MANGUM: Yeah.

TRUSTEE LAWSON: Okay.

1

2

3

4

5

6

PROVOST DAVID: Well, we presented a draft, we posted a draft before the committee met last time, and then -- was that two weeks ago, a week and a half ago? My days have collapsed. We got your Facebook. We have incorporated new information into this draft, and we are looking for your feedback.

14 I did try to see if there was in between the 15 last committee meeting and this committee meeting, 16 I did try to see if there was an opportunity for 17 us, since we had gotten feedback, to have another 18 committee meeting, but it wasn't possible to 19 schedule it. I did reach out to the Chair to try 20 and schedule another meeting so that we can answer 21 questions.

I hope I have indicated how excited I am to always talk about this information as long as you will let me, and so I'm happy to have as many meetings with the committee as they would like to

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

talk through these kinds of issues. And I didn't let him talk, but if you really want specific details, Doctor Palm has a huge handout with specific details about the things that we want to do that he will talk about for a very long time because he's exited about what we're trying to accomplish.

1

2

3

4

5

6

7

8 So we do have -- I am confident that the team 9 that we have put in place in terms of Doctor Palm, 10 working with the registrar's office, working with 11 academic advising, working with all of our partners 12 on the campus, working with the deans, working when 13 they come back in the fall with the students to 14 change our messaging, that we will be able to 15 accomplish this. I am confident about it, I'm 16 excited about trying to make that kind of a change, 17 and I think we could make -- I wouldn't have put --18 I would not have let them put my name to the 2017 19 and 2018 goals unless I thought it was reasonable.

20 On the 2019 goals, I know it's going to take a 21 lot more than what we have right now, but I think 22 we're going to be able to make progress towards 23 those 2017 and 2018 goals based on the plans that 24 we have in place. And if we are fortunate enough 25 to get additional resources, we will go all the way

1 to those 2019 goals. 2 TRUSTEE GRABLE: Okay. Thank you, Provost 3 David. And what -- I will just go ahead and call the 4 5 vote on this plan, and I remove the previous motion 6 from the floor and call for the vote. All in favor 7 of the work plan. TRUSTEE ALSTON: What is the motion? I'm 8 9 sorry, Madam Chair. 10 TRUSTEE GRABLE: The motion is that we approve 11 the work plan, the revised work plan that Provost 12 David and her team have put together. 13 Is there any more discussion? 14 (NO RESPONSE). 15 TRUSTEE GRABLE: Okay. All in favor. 16 (AFFIRMATIVE INDICATIONS). 17 TRUSTEE MOORE: You don't have a second. 18 TRUSTEE GRABLE: I'm sorry. I did need a 19 second. Thank you, Trustee Moore. 20 TRUSTEE WOODY: Second. 21 TRUSTEE GRABLE: All in favor. 22 (AFFIRMATIVE INDICATIONS). 23 TRUSTEE LAWSON: I can't vote. 24 TRUSTEE GRABLE: Pardon? 25 TRUSTEE LAWSON: I can't vote --

1 TRUSTEE ALSTON: I actually was going to 2 suggest maybe just bumping it to tomorrow's meeting 3 because it sounds like there's going to be more discussion from other members outside of the 4 5 committee. 6 TRUSTEE GRABLE: Okay. 7 TRUSTEE ALSTON: As opposed to, you know, 8 delaying this up or down, just a suggestion. 9 TRUSTEE GRABLE: Okay. All right. Is 10 there -- well, someone give me a motion to either 11 vote it or delay the vote. 12 TRUSTEE WOODY: Delay the vote until 13 tomorrow? 14 TRUSTEE ALSTON: Yes, that's what I was 15 recommending. 16 TRUSTEE LAWSON: I was only commenting. 17 Because I'm not on the committee, I couldn't vote. 18 She looked my way and I said I can't vote because 19 I'm not on the committee. 20 TRUSTEE GRABLE: Okay. All right. Is there a 21 motion on the floor? I need a motion to delay the 22 vote until tomorrow. 23 TRUSTEE ALSTON: Well, is that what you're 24 asking, Vice Chair Lawson? 25 TRUSTEE LAWSON: No, no, she looked my

C & N REPORTERS TALLAHASSEE, FLORIDA 850-697-8314

62 1 way, and I just a comment that I was not --2 TRUSTEE GRABLE: I just am asking all of the 3 Board members, since you suggested that. 4 TRUSTEE ALSTON: Okay. 5 TRUSTEE GRAHAM: Well, we can just proceed. TRUSTEE WOODY: Who made the motion? 6 7 TRUSTEE GRABLE: I did. 8 TRUSTEE WOODY: No, no, no. 9 TRUSTEE GRABLE: Okay. So we've already 10 pulled back the original motion. I am now asking 11 for a motion to delay the vote, if that is your 12 preference. No? 13 (NO RESPONSE). 14 TRUSTEE GRABLE: Okay. Trustee Woody. 15 TRUSTEE WOODY: For a point of clarification. TRUSTEE GRABLE: Yes, sir. 16 17 TRUSTEE WOODY: We said delay the vote until 18 tomorrow? 19 TRUSTEE GRABLE: That is the suggestion I 20 think, Trustee Alston, as an alternative? 21 TRUSTEE ALSTON: I'm sorry, Madam Chair, let 22 me clarify. I offered that suggestion because I 23 thought, based on Vice Chair Lawson, I think he 24 wanted to -- and others might have wanted to 25 register comments on this item. I'm actually, as

stated, you know, which I, you know, voted already. But I wanted others to weigh in because it appeared as if there was going to be some issue. So I was ready to push it forward, but I did not want -- if others wanted to chime in, which I thought -that's what I was really deferring.

CHAIRMAN MONTGOMERY: Madam Chair.

8 TRUSTEE WOODY: So there is no motion on the 9 floor now?

TRUSTEE GRABLE: Chairman Montgomery.

11 CHAIRMAN MONTGOMERY: If I may offer a 12 suggestion, Madam Chair. I'm not a member of the 13 committee, but one, obviously, would be to --14 whoever made the motion, to withdraw the motion; 15 and then at that point, it would be appropriate for 16 the committee to advance this item to the full 17 Board without a recommendation.

TRUSTEE GRABLE: Okay.

1

2

3

4

5

6

7

10

18

19 CHAIRMAN MONTGOMERY: And that would allow 20 you to achieve the goal of advancing this to the 21 full Board without having to vote in the 22 affirmative or the negative, and it would also 23 allow Board members who want to weigh in who are 24 not members of the committee to have a say in the 25 matter; but it accomplishes having gone through a

committee, so --

1

2

TRUSTEE WOODY: Okay.

3 TRUSTEE GRABLE: Okay. All right. Then is that acceptable to the other Board members? We are 4 5 simply accepting this as information, and it will 6 still move forward to the full Board if that is 7 where we want to go, so I need a motion for that. 8 TRUSTEE WOODY: So moved. TRUSTEE ALSTON: 9 Second. 10 TRUSTEE GRABLE: Okay. The motion has been 11 moved and seconded, and we want to thank the team 12 for their work on this; and the item will still 13 move forward to the full Board. 14 PROVOST DAVID: You have to vote. 15 TRUSTEE GRABLE: I'm working on my Roberts Rules of Order. 16 17 All in favor. 18 (AFFIRMATIVE INDICATIONS). 19 TRUSTEE GRABLE: All opposed. 20 (NO RESPONSE). 21 TRUSTEE GRABLE: Okay. The motion passes, and 22 the item will move forward to the full agenda 23 tomorrow; and other members who are not members of 24 the committee will have a chance to offer their 25 comments.

Now earlier in the meeting, in the previous committee meeting the Chairman asked that we add a discussion regarding the Sustainability Institute's budget request. And at this time, Mr. Chairman, would you like --

1

2

3

4

5

CHAIRMAN MONTGOMERY: I'd just -- thank you, 6 7 Madam Chair. I just wanted to ask Doctor Mangum or 8 the team if they could very briefly tell us about 9 the budget request. I think it's 2.75 million for 10 the Sustainability Institute. And I am of the 11 belief that these things need to come to the Board 12 prior to advancing them so that we may discuss 13 them, study them and provide a recommendation; 14 however, it's already been advanced and we will 15 have an opportunity to weigh in. But the thing 16 that jumped was I don't recall an extended 17 conversation about that particular budget item. 18 And I don't know if asking for close to 3 million 19 for that, if there are other academic issues or 20 other areas where that money could be better spent; 21 so I'd just like to hear briefly what the rationale 22 is behind making that part of the budget request. 23 TRUSTEE GRABLE: Doctor Mangum. 24 PRESIDENT MANGUM: Thank you. 25 If you would turn to the LBR, I think much of

the information is included in it, and the value of the Sustainability Institute is also described there, but let me review it for you.

1

14

The Sustainability Institute is a University-wide initiative that advances knowledge and the creation and promotion of socio-economic and environmental viability in Florida. Basically it's an institute that works across the entire University as a way of coordinating our efforts and our interest in environmental sciences, agriculture, and life sciences. And what it does is it gives us a platform to pursue other opportunities to enhance and enrich our University curriculum.

15 And so it's a coordinating body across -- an 16 effort across all of the faculty that have 17 interests in this area, creating a 21st century 18 University, one that is respected nationally and 19 that draws national and international attention. 20 It's a way to galvanize our faculty around doing 21 that, so increasing our faculty in building our 22 capacity in science, technology, engineering, math 23 and other areas. We are doing it -- and as well as 24 a way of coordinating interdisciplinary and multidisciplinary types of research is one -- is 25

the reason why I created the Sustainability Institute when I arrived.

And we've had a significant amount of success in this area internationally as well as locally and nationally with people being interested in working with Florida A & M University. So it's basically a way to enhance our efforts and prepare our students to work in the 21st century and beyond around some of our strengths. It provides an opportunity for cutting-edge research; looking ahead, basically, for a greater impact of the University.

12 Sometimes staying inside a stove -- stovepipe 13 organizations don't allow the faculty to be as free 14 to work with faculty in other areas; and so the 15 environment, agriculture, life science, the 16 humanities, this gives us an opportunity to be able 17 to stretch ourselves across the institution as well 18 as work with other agencies and international 19 governments. So we have had a considerable amount 20 of success in the last year in opening our doors 21 and partnering with other people around the issues 22 of sustainability which includes our footprint in 23 energy, like I said, and life, physical sciences 24 and humanities and other areas and provides 25 training opportunities, as well as research and

So it's a coordinating effort. It includes increasing -- if you look at the budget in detail, you'll see that it includes increasing faculty and staff and support organizations around -- across the institutions to support our efforts in this area. So it is part of us becoming -- or staying relevant.

TRUSTEE GRABLE: Chairman Montgomery.

10 CHAIRMAN MONTGOMERY: I just wanted to make 11 sure there was some sort of faculty and Board input 12 into this type of request, and so -- I'm not a 13 member of the committee, but I did want to ensure 14 that it had been brought up in an Academic Affairs 15 Committee so that if there was questions, concerns 16 or comments from an academic perspective about this 17 particular budget request -- I believe there are 18 other things we could do with the \$3 million if we 19 did get the amount approved, but it's a matter for 20 the committee.

TRUSTEE GRABLE: Okay. Any other comments
from other Board members? Trustee Shannon?
TRUSTEE SHANNON: No, none from me.
TRUSTEE GRABLE: Okay. I think that ends our
discussions related to the Academic Affairs
