uCentral

uCentral delivers the information found in trusted medical resources on mobile devices or the web. Each institution selects content for a customized aggregation that is integrated with the existing journal collection. With downloadable, on-device references patrons can quickly and confidently find answers even when network connectivity is not available.

The award-winning Unbound Platform has a clean, intuitive interface, easy-to-use navigation tools, and Cross Links between available resources. Text, images, audio, and video performance are optimized for all popular devices including iOS (iPad®, iPhone®, and iPod touch®), and Android™ (tablets and smartphones).

Grasp™

A study solution that allows healthcare professionals and students to build decks of flashcards directly from trusted content, study on their mobile device or the web, and share the decks with other users. Grasp uses a proven learning method that helps users master unfamiliar concepts or prepare for exams.

Calculators

uCentral includes integrated calculators for quick and easy calculations. Clinical users can access dozens of essential clinical, conversion, dosage, and IV calculators without leaving the uCentral app. Each calculator includes full equation descriptions and PubMed links to the supporting evidence within the literature.

uCentral includes:

Prime Search, Journals, and For You.

Quickly search over 22 million journal articles from the PubMed database on smartphones and tablets and leverage the institution's existing journal collection with full text access to local holdings.

Additional features of Prime Search include:

- Grapherence™ – Exclusive tool delivering a brand new way to visually explore interrelationships and relevance of medical literature
- Link Resolver Support – On the device or on the web interface
- PDFs from PubMed Central – Full text articles and/or PDFs from PubMed when available
- Full Text Links – Direct links to the publisher's full text article when available
- Sharing Options – Easy sharing of abstracts and citations via email, Dropbox, Twitter, Facebook, and more
- Multi-Format Support – Email abstracts and citations in preferred format (Prime, XML, HTML, etc.) to upload to a bibliographic manager
- For You: Discover new articles in a feed designed specifically for you based on how you use the app

Features of uCentral:

Canvas Integration: Single Sign On and static links are available to streamline user experience for students and faculty.

Notes

Notes provides users the ability to make custom notes and highlights within the uCentral entries. Notes automatically sync between mobile devices and the web

Favorites

Quickly revisit important information by setting bookmarks in any of the resources contained in uCentral. Favorites sync across all mobile devices and the web.

Universal Index Search

Conduct searches across all available indexes in the uCentral bundle to find answers without the need to browse through individual resources.

Cross Links

Easily locate additional information about a topic by using Cross Links to jump to related entries in other available references.

Custom Institutional Messaging

Communicate with users through uCentral. Use the tablet dashboard to create a customized message with the latest news or information.

Update Notifications

Users will always have access to the most up-to-date information. When content updates become available notifications will be sent to all mobile devices prompting download of the latest content.

Statistics

Administrators at institutions have access to powerful tools that deliver metrics on how uCentral is being used. Reviewing these statistics can identify which resources and features are best for their group of users.

Support

Unbound Medicine offers free support for all products. We will answer questions and help troubleshoot any potential issues, taking the burden off of the IT department.

Training

Free uCentral training is available for all faculty and students to demonstrate use of the customized mobile and web resource and to answer any questions.

Titles include:

5-Minute Clinical Consult

5-Minute Clinical Consult delivers fast, to-the-point guidance on diagnosis and treatment of more than 900 medical conditions. It contains all of the information needed to provide quality care to patients including diagnosis, treatment, follow-up, and patient teaching.

McGraw-Hill Medical's Diagnosaurus®

Diagnosaurus® is a valuable quick reference tool with over 1,000 differential diagnoses. This application helps healthcare professionals reach accurate diagnoses with speed and confidence at the point of care.

Bates' Pocket Guide to Physical Examination and History Taking

Bates' Pocket Guide to Physical Examination and History Taking is a quick-reference guide to taking a detailed patient health history and conducting a thorough physical examination. Extensive use of images and tables along with an emphasis on evidence-based information make this mobile resource a must have for health professionals.

Guide to Diagnostic Tests

Guide to Diagnostic Tests provides evidence-based recommendations on the selection and interpretation of laboratory, imaging, and microbiology tests. Including more than 450 updated diagnostic tests, this handy reference is ideal for answering questions encountered daily by physicians, nurses, students, and other healthcare professionals.

Washington Manual of Medical Therapeutics

The Washington Manual of Medical Therapeutics provides practical clinical recommendations for residents and senior medical students. This mobile database allows clinicians to quickly diagnose and treat patients with hundreds of medical conditions.

Johns Hopkins ABX Guide

The official Johns Hopkins ABX (Antibiotic) Guide from Johns Hopkins Medicine features up-to-date, authoritative, evidenced-based information on the treatment of infectious diseases to support decisions at the point of care. This comprehensive web and mobile resource organizes details of diagnosis into easily accessible, quick-read entries.

Johns Hopkins Diabetes Guide

The official Johns Hopkins Diabetes Guide from Johns Hopkins Medicine contains up-to-date, evidence-based, clinical decision support information for diabetes. The Diabetes Guide outlines recommendations on management, complications, and medications and features details on tests, complications, drugs, and management with expert editor comments.

Johns Hopkins HIV Guide

The official Johns Hopkins HIV Guide from the experts at Johns Hopkins Medicine delivers the latest authoritative information on HIV diagnosis, management, and relevant medications. Clinicians can consult The HIV Guide to quickly find answers about opportunistic infections, malignancies, complications, related drugs, and therapy guidelines at the point of care.

Johns Hopkins Psychiatry Guide

From the experts at the Phipps Clinic at Johns Hopkins, the official Johns Hopkins Psychiatry Guide provides clinicians with quick-read recommendations for the diagnosis and treatment of psychiatric diseases at the point of care. Residents, primary care physicians, psychiatrists, and other healthcare professionals can quickly find need-to-know information in this comprehensive resource.

DSM-5 Differential Diagnosis Handbook

Using the latest DSM-5 classifications, this interactive resource helps all clinicians improve the diagnosis of psychiatric conditions. From the American Psychiatric Association, DSM-5 includes integrated decision trees, and a trusted 6-step process to consult when dealing with, sometimes unfamiliar, psych conditions.

Dermatology DDx

Dermatology DDx features hundreds of high-resolution images of common skin conditions. Download to a mobile device to accurately diagnose and treat dermatologic disorders with confidence at the point of care.

Drug Interactions from The Medical Letter

Drug Interactions from The Medical Letter provides users with an unbiased resource to quickly search and find potentially life-threatening interactions between multiple medications. Prescribers can view detailed monographs about each interaction to find recommendations for precautionary measures, supporting literature in PubMed, and much more.

Essential Evidence Plus POEMS (formerly InfoPOEMs)

Essential Evidence Plus POEMS (Patient-Oriented Evidence that Matters) delivers new evidence that is especially relevant to patient care. Each new POEM is reviewed for accuracy and graded for relevancy before release, resulting in the best research findings for clinical practice. View new POEMS daily as they are delivered or search the archive by date or title.

Evidence-Based Medicine Guidelines

Evidence-Based Medicine Guidelines (EBMG) features nearly 1,000 clinical guidelines with diagnosis, treatment, and more than 3,000 evidence summaries that support each recommendation. EBMG includes an image library of over 1,000 images, as well as an extensive video collection. EBMG is updated quarterly.

Tangela Lofton
Nursing Program
Florida A & M University
4747 Maylor Rd.
Tallahassee, FL 32304

Dear Tangela:

A complete description of Nursing Central can be found as an attachment at the end of this letter.

Unbound Medicine is proposing to Florida A & M University a site license to Nursing Central, a software and service only offered by Unbound Medicine. It is a unique bundle for Mobile and Web containing:

- *Davis's Drug Guide*
- *Davis's Laboratory and Diagnostic Tests*
- *Diseases & Disorders*
- *Taber's medical Dictionary*
- Prime Search
- Prime Journals
- Prime for You
- Keith RN Case Study
- Canvas Integration
- Grasp
- Calculators
- Note Taking and Highlighting

Nursing Central has a number of features that cannot be found together elsewhere in a mobile content aggregation.

- Prime search with links to full text in PubMed.
- Keith RN Case Study integrated with resources named above.
- Canvas Integration
- Grapherence™, a visual way of exploring the literature.
- Prime Journals, a table of contents alerts available on the device.
- Grasp™, a unique flashcard based study system to reinforce key concepts.
- Glimpse™, a technology to help students define words in-text.
- Statistics - Administrators can access metrics on how Nursing Central is being used.

Sincerely,

Patty Ford
Senior Sales Representative

Nursing Central

Nursing Central

Nursing Central is the premier source of disease, drug, and test information for nurses. It also includes a leading dictionary, literature searching, and a study system. Get quick answers wherever you need them—on your mobile device or the web.

Nursing Central is the complete mobile solution for nurses and students. Look up detailed information on diseases, tests, and procedures; then consult the comprehensive database of 5,000 drugs or refer to more than 65,000 dictionary terms whenever you have a question. Search Prime or keep up with your favorite nursing journals by having tables of contents delivered directly to your mobile device.

Nursing Central includes:

Davis's Drug Guide

The best-selling drug reference produced by F.A. Davis provides need-to-know information on thousands of brand name and generic drugs.

- 1,700 monographs covering 5,000 trade and generic drugs
- Regular updates with the latest FDA-approved medications
- Details of IV administration, dilution, and concentration
- Common herbal and natural products
- High-alert notices and patient safety information
- Drug-drug, drug-natural, and drug-food interaction

Authors: Judith H. Deglin, PharmD; April H. Vallerand, PhD, RN, FAAN; Cynthia A. Sanoski, BS, PharmD, FCCP, BCPS

Taber's Medical Dictionary, 23rd Edition

Taber's Medical Dictionary is a comprehensive health science dictionary featuring over 68,000 terms, 3,000 of which are new and revised. Taber's also includes:

- 1,200 full color photos and illustrations
- Over 130 videos
- Integrated audio pronunciations for nearly 33,000 terms
- 600 Patient Care sections

Editor: Donald Venes, MD, MSJ, FACP

Diseases and Disorders

Diseases and Disorders, fourth edition is a must-have reference for every nurse. With complete, updated coverage of more than 250 medical conditions encountered in nursing practice, you can quickly find the information you need to plan and deliver patient care. Practical recommendations are supported by concise descriptions of how the human body is altered by disease and clear rationales for medications and tests.

Editor: Marilyn Sawyer Sommers, RN, PhD, FAAN

Davis's Laboratory and Diagnostic Tests

Davis's Laboratory and Diagnostic Tests is an easy-to-consult manual with over 400 entries. With the experience of nursing, clinical laboratory, and radiology specialists at your fingertips you can quickly check pre-test requirements, intra-test procedures and monitoring, and post-test care.

Authors: Anne M. Van Leeuwen, MA, BS, MT (ASCP); Debra J. Poelhuis-Leth, MS, RT (R) (M); Mickey Lynn Bladh, RN, MSN

Prime - PubMed, Journals, and Grapherence® Access

Prime connects you to the most up-to-date journal citations and abstracts from the complete PubMed database. Link directly to the fully-integrated Unbound Prime service to find related articles and view full text provided by the journal publisher. Discover new articles in a feed designed specifically for you based on how you use the app. Select specific journals you want to follow and receive alerts when new articles are published.

Additionally, Prime Search contains a powerful, exclusive feature called Grapherence™ which delivers a new way to visually explore the interrelationship and relevance of medical literature.

Note: Prime Journals provides links to full text articles only when available from PubMed; to view full journal text online you may need a separate subscription.

Keith RN Case Study - integrated with Nursing Central with faculty key

Featured Tools

- Grasp™ – a study system using a proven learning method that helps you master unfamiliar concepts or prepare for an exam
- Glimpse™ – an in-text disease, drug, and definition lookup tool
- Notes – provides users the ability to make custom notes and highlights within the Nursing Central entries. Notes automatically sync between mobile devices and the web
